Art Unit: 2854

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Saikawa et al.

Referring to figs. 13-18, the sixth embodiment, col. 8, lines 15-29 disclose a page support member 9a which rocks about shafts 9b. Discharge roller 5a ejects the sheet unto the support member 9. See col. 9, lines 41-46. Reversing the direction of roller rotation from direction E to direction F causes support member 9 to rotate in a direction G. See col. 9, lines 51-61. A discharge tray 6 receives the paper sheet upon pivoting of the support member 9a. See col. 8, lines 15-25 concerning tray 6.

Regarding claim 10, the above applies with col. 3, line 66 teaching use with an ink jet head 4d.

Claims 2-9 and 11-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

A shortened statutory period of 3 months is set to respond.

Any inquiry concerning the specifics of this communication should be directed to Examiner Eickholt, who can be reached Tuesday through Thursday. Inquiries of a general nature should be directed to the TC2800 receptionist.
